

Callan

2024 Internship Program Summary

Our 2024 internship program offered a unique opportunity to gain hands-on experience in institutional investing and the broader investment consulting industry while working at Callan's San Francisco headquarters.

Designed as a rotational program, it provided exposure to multiple disciplines, including investment consulting, alternative investments, global manager research, communications, and database management. Interns had the chance to collaborate with industry experts, contribute to meaningful projects, and gain insights into the diverse needs of institutional clients.

This immersive experience not only showcased the dynamic environment at Callan but also prepared participants for exciting career paths in the investment world and beyond.
